Ed Odhiambo

Data Scientist | Quantitative Analyst | Commercial Insights

Professional Summary

Versatile Data Professional and Quantitative Researcher with 2+ years of experience transforming complex datasets into actionable strategic narratives. Currently pursuing an MSc in Mathematical Finance at Strathmore University, applying advanced statistical rigor to risk modeling and derivatives pricing. Expert in Python, SQL, and Power BI, with a proven track record in optimizing commercial pipelines, designing robust data models, and leading cross-functional technical evaluations. Passionate about leveraging data integrity and predictive analytics to drive impact across finance, healthcare, and international development sectors.

Technical Skills & Competencies

Programming	Python (Pandas, NumPy, Scikit-learn), SQL, R, Stata, LaTeX
Analytics	Machine Learning (Classification, Regression), Exploratory Data Analysis (EDA), Time-Series Forecasting, Statistical Inference
Data Ops	ETL Pipelines, Data Modeling (ERDs, Normalization), Data Quality Assurance, Metadata Management, CRM System Integration
Financial	Options Pricing (Binomial/Black-Scholes), Portfolio Theory, Risk Analytics, Valuation, Macroeconomic Analysis
Tools	Power BI, Tableau, Advanced Excel (VBA/Macros/Pivot Tables), Git, GenAI for Research Synthesis
Soft Skills	Stakeholder Management, Technical Documentation, Advisory, Cross-functional Leadership

Professional Experience

2026 **SQL & Data Modeling Fellow**, *Dataseal Software Ltd*, Nairobi

- **Data Architecture:** Designed and validated SQL-based ETL pipelines to ensure data consistency and reproducibility for large-scale reporting.
- **Logic Modeling:** Mastered entity-relationship modeling and normalization to translate complex business requirements into structured technical frameworks.
- **Integrity Management:** Conducted rigorous data cleaning and validation checks, reducing background research time and improving reporting reliability.

2023–2025 **Data Analyst**, *Chancery Wright Insurance Brokers*, Nairobi

- **Commercial Growth:** Increased department profitability by 12% through the design of an optimal agent-client allocation model based on customer-level KPI tracking.
- **Strategic Decision Support:** Led a cross-functional team in the evaluation and selection of a new CRM system, improving workflow efficiency by 20% and ensuring 100% data compliance.
- **Narrative Synthesis:** Authored technical briefs and recurring performance reports for executive leadership, translating complex behavior trends into actionable growth strategies.
- **Retention Strategy:** Improved client retention by 15% by leveraging data-driven engagement strategies and cohort tracking.

Ed-Odhiambo

2023–2025 **Broking Assistant (Technical Focus)**, *Chancery Wright Insurance Brokers*, Nairobi

- **Conversion Optimization:** Achieved a 20% increase in client acquisition through data-informed presentations and personalized consultations for high-value accounts.
- **Portfolio Analysis:** Identified client needs during the medical insurance lifecycle, resulting in a 10% cross-sell increase and meeting quarterly growth targets.
- **Support Resolution:** Reduced client complaint rates by over 20% through prompt, data-backed resolution of technical support requests.

Education

2024–Present **MSc in Mathematical Finance & Risk Analytics**, *Strathmore University*, Nairobi
Focus: Quantitative Research, Derivatives Pricing, and Algorithmic Risk Measurement.

2023 **Data Science Certificate**, *Moringa School*, Nairobi
Specialized in Predictive Modeling, Machine Learning, and Python for Data Science.

2016–2021 **Bachelor of Economics and Finance**, *Kenyatta University*, Nairobi
Focus on Econometrics, Microeconomic Market Dynamics, and Statistical Modeling.

Selected Quantitative Projects

2024 **Options Pricing Analysis (NYSE)**, *Python & Financial Engineering*

- Implemented the Binomial Options Pricing Model to value NYSE-listed derivatives, demonstrating high-level statistical rigor and code reproducibility.

2023 **StartUp_InvestMatch**, *Global Macro-Analysis*

- Developed a machine learning solution to identify high-potential sectors for investment using macroeconomic and political data; applicable to TAM sizing and market research.

2023 **SyriaTel Churn Prediction Model**, *ML Workflow & Behavioral Analytics*

- Built a high-recall (78%) model using behavioral and demographic data to identify funnel drop-offs and improve customer lifetime value.

2023 **King County House Price Forecasting**, *Predictive Modeling*

- Created a regression model with 0.79 R^2 accuracy to estimate property valuations based on dynamic market features.

Professional Memberships & Certifications

KASNEB Certified Investment & Financial Analyst (CIFA) - Level 1

Online Google Data Analytics (Professional Certificate - In Progress)
